

## Test Review - Part 1

## Graphing Quadratic Functions

1. Graph quadratic equations/functions using a table of values.

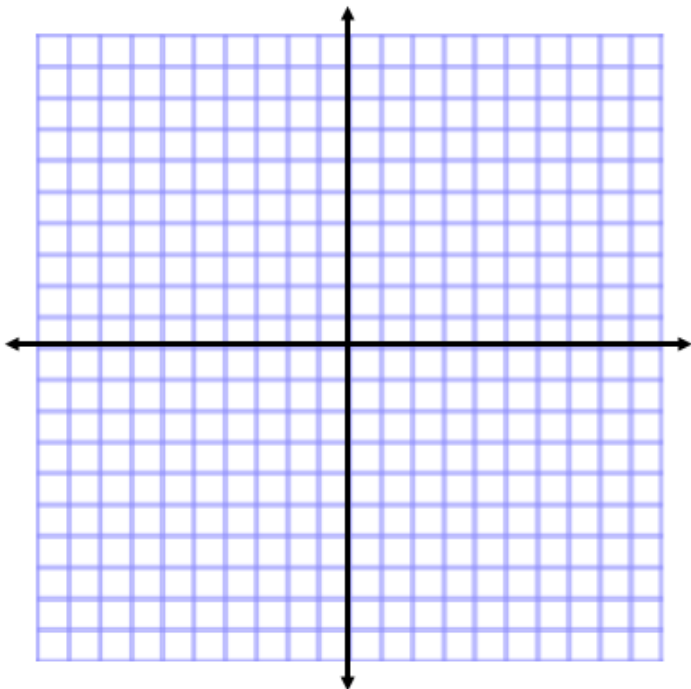

Example:

1.  $y = x^2$

x	y
-3	
-2	
-1	
0	
1	
2	
3	

2.  $y = -(x)^2$

x	y
-2	
-1	
0	
1	
2
